

Javascript SDK

The **Apstrata Javascript SDK** is a sophisticated apstrata client implementation using [the dojo toolkit](#), it can also be used in conjunction with other frameworks such as [jQuery](#). The SDK can be used to implement mobile applications too using frameworks such as [dojo mobile](#) or [jQuery mobile](#).

You can download the apstrata Javascript SDK from <http://code.google.com/p/apstrata/source/browse/#svn%2Ftrunk%2F%2FApstrataSDK> or from <http://code.google.com/p/apstrata/downloads/list>
